About Me

I am a recent university graduate skilled in Java, Dart, Flutter, Firebase, HTML, CSS, JavaScript, and React.js, with a passion for creating visually appealing and user-friendly mobile and web applications. I am seeking a challenging software development role in a dynamic organization where I can leverage my technical skills and knowledge to contribute to innovative solutions.

Education History

BACHELOR OF COMPUTER SCIENCE (HONOURS)
International Islamic University Malaysia
CGPA 3.59 | July 2018 - April 2023

- Specialization in Software Engineering
- KICT Dean's List for 5 semesters
- Winner of the BRONZE AWARD at the KICT Final Year Project (FYP) Showcase

Relevant Skills

- **Programming languages:** Java, Dart, HTML, CSS, JavaScript, SQL
- **Frameworks and Tools:** Flutter, React.js, Clean Architecture, Provider, Riverpod, BloC, RESTful APIs, Firebase, Android Studio, Visual Studio Code, Git
- **Mobile Development:** Cross-platform mobile application development, UX/UI design, responsive web design
- **Database Management:** Cloud Firestore, Firebase Realtime Database
- **Relevant coursework:** Object-Oriented Programming, Data Structures and Algorithms, Web Development, Mobile Application Development, Database Systems, Operating Systems, Project Management In Software Engineering, Requirements Engineering, Software Design, And Architecture, Software Testing

Work Experience

FLUTTER DEVELOPER INTERNSHIP AT TECZO SDN BHD
teczo.co
Nov 2022 to April 2023

- Worked on developing a web application using Flutter SDK
- Designed and developed user interfaces with responsive web design, user-friendly layouts, and intuitive navigation
- Developed and maintained backend services using Firebase. I have worked extensively with Cloud Firestore, Firebase Authentication, and Firebase Hosting.

FREELANCE UI/UX DESIGNER
Fiverr.com
Nov 2021 to Mar 2022 (5 Months)

Worked on several client projects and designed mobile app UI based on client requirements using the Figma design tool.

Projects

1. Self-diagnosed metabolic syndrome app for early prevention of heart disease, stroke, and obesity complications (Steko health checker) [Final year Project]

Developed a mobile application for Self-diagnosed metabolic syndrome using Flutter SDK and Firebase. The application allows users to Self-diagnosed metabolic syndrome apps for early prevention of heart disease, stroke, and obesity complications. Developed and maintained backend services using Firebase Cloud Functions and integrated with Firebase Authentication.

2. Web Application Development Using Flutter and Firebase [Internship]

Designed and developed user interfaces with responsive web design, user-friendly layouts, and intuitive navigation. Developed and maintained backend services using Firebase Cloud Functions and integrated with Firebase Authentication, and Firebase Hosting.

3. Todo list Apps, BMI calculator, word analyzer, queuing system, calories intake tracker, social media clone

Developed several small mobile applications using flutter SDK and firebase to learn and apply my knowledge. Visit my GitHub to find more: https://github.com/parvesshikder or parvesshikder.github.io
